

# Tierra Automation

## IoT

**This workshop provides basic and advanced concepts of IoT. Our Internet of Things workshop is designed for beginners and professionals also. Our workshop includes all the topics of IoT. This will help the students to create the modern era in electronics.**

- **Introduction to IoT**
- **Uses and Applications of IoT**
- **Introduction to ESP8266NODE MCU Pin out of node MCU**
- **Arduino IDE & Coding**
- **APP setup**
- **Project on IoT**
